

Bulk defoamer AFC-1226

Introduce

It is made by a special emulsification process, excellent foam suppression performance in water-based coatings and water-based ink systems. Effective control micro foam, high performance in shear resistance and system compatibility.

Features

- Excellent performance for micro foam
- Excellent foam knocking and foam suppression
- Good dispersant and shear resistance.

➤ Application

- Water base coating materials
- Water based ink

Item	Index
Appearance	Milky liquid
Viscosity(25°C)	1000–3500Pa.s
Ionicity	Non-ionic
Solid content	≥99%
Continuous phase	liquid

Bulk defoamer

AFC-1226

Method of use

- Direct addition: Pour the defoamer directly into the treatment tank at a fixed time and point.
- Continuous addition: Equip a flow pump at the relevant location where the defoamer needs to be added, and continuously add the defoamer to the system at a specified flow rate.

Transportation and packaging

- Packaging: Available in 25kg, 120kg, 200kg plastic drums or ton boxes.
- Storage: Store at room temperature, away from heat and sunlight. Avoid contact with acids, alkalis, or salts. Keep sealed to prevent contamination. Shelf life: 6 months. If layered, stir well before use.
- Transportation: Keep sealed, protect from moisture, acids, alkalis, and rain.

Product safety

- According to the Globally Harmonized System of Classification and Labelling of Chemicals, this product is classified as non hazardous.
- No danger of combustion and explosives.
- Non toxic and environmentally friendly.
